

ST. ALPHONSUS SCHOOL

PARENT TESTIMONIALS

We transferred from another diocesan school to Saint Alphonsus because of the traditional math curriculum. As a family of nuclear and medical physicists, the solid math curriculum is important to us. We have been very happy we made this decision, not only because of how our children are being taught, but also because of the family-like atmosphere at the school.

—Dr. Rikki Roché and Dr. Olivier Gayou

We have had six children graduate from Saint Alphonsus, and each one has been very well prepared for high school. Saint Alphonsus has a warm and caring environment for the children to grow and learn. We are so pleased that the children pray daily, attend mass regularly, and are encouraged to grow in their faith. With two children still attending Saint Alphonsus, we are confident that they are getting a strong head start on life by being educated at this fine school.

—Paul and Michele Myron

We started at Saint Alphonsus when my daughter began kindergarten five years ago. Since then, we have seen her grow into a responsible, conscientious, and caring young lady thanks in no small part to the faith-based education and close-knit community at Saint Alphonsus. She has had opportunities to challenge herself academically, athletically, and artistically, and has been lovingly encouraged every step of the way by the dedicated teaching staff. Now her younger brother is following in her footsteps, ready to grow and advance along with her. We have every confidence the education they receive at Saint Alphonsus will propel them to great things.

—Dave and Sue Carr

My husband and I always wanted our children to attend Catholic School. We toured many of the parochial schools in the area to find one that would be a good fit both academically and socially. St. Alphonsus proved to be perfect for our girls! Academically, our children are challenged and supported by amazing and dedicated teachers who, each and every day, go above and beyond all expectations to provide a stimulating, creative, and fun learning environment. Socially, our children were delighted the moment they walked into St. Alphonsus four years ago. The student body was very accommodating to our children when we toured the school for the first time, allowing our two oldest daughters to shadow a future classmate for a full day to truly get the feel of this amazing institution. The teachers, staff, and parents of St. Alphonsus answered all our questions, introduced my family to current families, and helped our transition go smoothly. We are proud to be a part of the St. Alphonsus family!

—The Krieger Family

Saint Alphonsus is the hidden gem of Wexford! We were aware of the tradition of excellence, but were impressed to find such a modern facility that has invested in and utilizes technology in the classroom. Our children love the beautiful gym and lockers. We love the quality education and the nurturing, faith-filled environment that is shaping their moral and academic foundations.

—Cathy and John Peoples
